

Erin Buckwalter

Why I Serve on the Board: I have spent my adult life working and volunteering in the Vermont food system and am passionate about connecting with people through food and agriculture. I see Co-ops as an integral partner in creating a sustainable food system, and the Middlebury Co-op is key to this vision locally. I am excited to be able to participate in the democratic processes of our Co-op and support others in keeping more dollars and decisions local!

My Favorite Co-op Item: It's so hard to choose! I often grab an Aqua ViTea Blueberry Social Kombucha and some dried mango or dolmas for a quick and satisfying snack on my way home!

About Me: I have worked at the Northeast Organic Farming Association of Vermont (NOFA-VT) since 2010 and have a master's degree in Community Development & Applied Economics. My partner and I live in Starksboro with our two sons on land that's long been in his family. In the past, we ran a small pasture-based livestock farm and currently homestead with a large garden, chickens, and a 525-tap sugar bush.
