

Why I serve on the Board: We are all familiar with the refrain “voting with your dollars” as a shared value of conscious consumers. I choose to spend my money at the Co-op because I believe in this idea, and I choose to be a member of the Board of Directors because I similarly believe in the concept of “voting with your time.” Being a member of the Board allows me to “spend my time” committing to democracy. I believe deeply in the cooperative business model, and I am passionate about the success of our community-owned grocery store.

My Favorite Co-op Item: Any produce from Golden Russet Farm!

About Me: I have been a member-owner since 2008, a Board member since 2016, and Board President since 2021. I have a Master’s in Elementary Education, and I now spend my days with my five-year old and two-year old twins.
